SUPPLEMENTARY INFORMATION:

A. Purpose

Per FAR 47.208, military (and, as required, civilian agency) storage and distribution points, depots, and other receiving activities require advance notice of shipments en-route from contractors' plants. Generally, this notification is required only for classified material; sensitive, controlled, and certain other protected material; explosives, and some other hazardous materials; selected shipments requiring movement control; or minimum carload or truckload shipments. It facilitates arrangements for transportation control, labor, space, and use of materials handling equipment at destination. Also, timely receipt of notices by the consignee transportation office precludes the incurring of demurrage and vehicle detention charges. Unless otherwise directed by a contracting officer, a contractor shall send the notice to the consignee transportation office at least twenty-four hours before the arrival of the shipment.

B. Annual Reporting Burden

Respondents: 113.

Responses Per Respondent: 71.

Annual Responses: 8,023.

Hours Per Response: .167.

Total Burden Hours: 1,340.

The public burden hours represent a decrease from the previously approved information collection.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary; whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.
